

## Ochratoxin C

Code No.: BIA-O1589

Pack sizes.: 1mg, 5mg

Synonyms:

-

## Specifications

CAS #	: <b>4865-85-4</b>
Molecular Formula	: <b>C<sub>22</sub>H<sub>22</sub>ClNO<sub>6</sub></b>
Molecular Weight	: <b>431.9</b>
Source	: -
Appearance	: <b>Off-white solid</b>
Purity	: <b>&gt;95% by HPLC</b>
Long Term Storage	: <b>-20°C</b>
Solubility	: <b>Soluble in ethanol, methanol, DMF or DMSO.</b>

## Application Notes

Ochratoxin C is a minor component of the ochratoxin complex produced by several *Aspergillus* and *Penicillium* sp. associated with food spoilage. Ochratoxin C is the ethyl ester of ochratoxin A and, despite its relatively low abundance, it is the most non-polar and the only neutral component of the complex. As such, ochratoxin C represents a different hazard to the acidic major components ochratoxins A and B. Ochratoxins are widely distributed in the environment and are known to be nephrotoxic and teratogenic, however ochratoxin C has not been extensively studied.
